REACH OUT

[ABOUT ME]

"Creating tools that deliver rich, user-friendly experiences while safeguarding privacy."

WHAT I DO

Develop beautiful, clean applications with advanced functionality for power users while remaining intuitive for non-technical users to master over time.

I AM

A perfectionist who pays attention to every detail be it functional or design wise. I advocate for privacy conscious applications and contribute to open-source projects.

I LIKE

To learn languages, at the moment I'm focusing on eastern ones. Discover about the cosmos. Read about anything and everything. Sport bikes.

継続は力なり

J.

REACH OUT

[SKILLS]

LANGUAGES

Python · Rust · C/C++ · JavaScript

WEB TECHNOLOGIES

Node.js · Next.js · React · Express · Actix · Axum
